RoofLead IQ

Tampa Bay roof-age intelligence

Pinellas · Pasco · Manatee · Hillsborough

Own the ZIP. Reach homeowners before they start shopping.

Addresses of homeowners with roofs 13+ years old and no re-roof permit on file, delivered weekly and exclusive to one contractor per ZIP. Not a lead you buy — a neighborhood you own.

Why it's different

- **Checked against permit records.** Every address is checked for a re-roof permit before it reaches you — not a guess, not a self-reported form.
- **Exclusive by ZIP.** One contractor per address. No competitor knocking the same door an hour behind you.
- **Weekly, sorted by route.** Fresh addresses grouped by neighborhood, so your crew plans an efficient route.
- **Gets sharper over time.** Mark each address Interested, Sold, or No Answer and the feed learns which streets are worth it.

Most lead channels wait for a homeowner to start searching, then you compete for the call. RoofLead IQ reaches homes already in the replacement window — before the homeowner starts shopping.

Territory Lock — ZIP exclusivity add-on

Hold a ZIP code to your business alone. Available on any tier. Up to 30% of a ZIP's inventory can be locked, 3-month minimum, first come, first served.

Illustrative math

About 75 addresses a week at a 1% close rate is roughly 3 closed roofs a month — one closed roof can pay for months of the service. Your results will vary with your close rate and average job size.
